

Alex Bent

SOFTWARE DEVELOPER

Stony Hill, Kingston | 876.451.2422 | alexbent716@gmail.com

Objective

Software Developer specializing in integration and optimization. Proven ability to reduce system latency by 30% and enhance operations with scalable, secure solutions. Skilled in C#, .NET, ASP.NET, and data integration, with a focus on Docker and Azure. Strong collaborator in achieving business and technical goals

Experience

Jamaica Defence Force | Software Developer, intern September 2024-Present

- Develop and maintain secure, scalable applications using Python and Django.
- Optimized database queries and system processes, reducing software latency by 20%.
- Implement Docker for improved deployment pipelines and application scalability.
- Utilize Microsoft SQL for efficient database management and querying.
- Conduct software testing, troubleshoot integration issues, and ensure data integrity for mission-critical systems.

Jamaica 4H's Clubs | Information Communication Technologist, intern 2022-2023

- Managed data uploads in a C#-based system, processing and integrating Excel and CSV files efficiently.
- Assisted in streamlining data entry processes, reducing data upload time by 30% through process optimization
- Collaborated with the IT team to troubleshoot and resolve data integration issues, ensuring the seamless operation of the C# system.
- Gained hands-on experience in .NET-based applications, enhancing system functionality and performance.

Education

Amber Heart Academy, Diploma 2024

Major: Mobile Development | Minor: Data Protection

Vocational Development institute, BS Information Communication Technology 2023

Major: Software Engineer | Minor: Digital Marketing

Skills & abilities

- Experienced in creating and maintaining documentation for operational excellence.
- Adaptable with a commitment to continuous learning and rapid skill acquisition.
